## COUNTY OF CUMBERLAND, PENNSYLVANIA

### Enterprise Funds

#### Description of Funds

Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises – where the intent of the County is that the costs (expenses, including depreciation) of providing services to the general public on a continuing basis be financed or recovered primarily through user charges or cost reimbursement plans. The following are used to account for those financial activities:

- The County Nursing Home Fund provides long-term nursing care to qualified residents.
- The 911 Fund provides emergency response communications to the County, funded through a telephone charge to County residents.
- The Hazardous Materials Fund finances the monitoring of the storage of hazardous materials in the County and the operation of response teams, funded through grants and fees charged to responsible parties.

### General Fixed Assets Account Group

#### Description of the Account Group

Fixed assets used in governmental fund type operations are accounted for in the General Fixed Assets Account Group rather than in governmental funds. Infrastructure, or public domain general fixed assets, consisting of certain improvements other than buildings, such as roads, bridges, curbs and gutters, streets and sidewalks, drainage systems, and lighting systems, are not capitalized with other general fixed assets. Depreciation is provided on exhaustible general fixed assets using the straight-line method over the estimated useful life of the asset.
