### Soto Appointed Administrator of Claremont Nursing and Rehabilitation Center

**Carlisle, PA** – The Cumberland County Commissioners named Raymond Soto as the Administrator for Claremont Nursing and Rehabilitation Center.

Soto is not new to Claremont; he previously served as the nursing home's administrator. He began his career as Director of Social Services and Admissions at Francis E Parker Memorial Home, New Jersey, and spent most of his career as a nursing home administrator, most recently serving as Executive Director at Church of God Home in Carlisle.

“Raymond brings a wealth of knowledge and a solid management background to the role of administrator,” said Cumberland County Commissioner Vince DiFilippo. “He is well known for putting residents and staff first, making for a family environment at Claremont.”

As administrator, Soto will plan, direct and control the overall operation of Claremont, and carry out its objectives of providing quality care and service to all residents, in accordance with established federal, state and county policies, procedures and guidelines.

“I worked at Claremont in 2015 as administrator, and always wanted to come back because I fell in love with Claremont and with the town of Carlisle. Since then, I moved back to Carlisle, and am thankful to have the opportunity to work again with the staff, residents and families who have trusted their loved ones to the dedicated and compassionate care provided by Claremont,” said Soto. “The most rewarding part of my job will be, as it was before, helping to ensure the best possible care for our residents while instilling in Claremont's dedicated staff a true sense of collaboration, partnership and pride in the job they do for those who depend on our care.”

Soto holds a Masters in Social Work from New York University.

Claremont Nursing and Rehabilitation Center has a proud history of quality of care for our seniors in need. A 282-bed community-based skilled nursing and rehabilitation center with an open admissions policy, Claremont offers advanced therapeutic nursing care for a variety of needs, a dementia unit, and a 7-day a week short term rehab unit.
