

## 2021 Clean Water Award

### Integrated Development Partners, LLC

The Erosion & Sedimentation Control and NPDES staff selected Integrated Development Partners, LLC (IDP) for the Clean Water Award. The team at IDP typically submits high quality and complete NPDES permit submissions. Their permit documents often include site designs that incorporate erosion and sedimentation control and post construction stormwater management plans that exceed regulatory requirements. IDP thinks outside the box and has proposed some innovative designs to meet stormwater requirements. The IDP team has great communication with District staff and their work ethic is evident in the paperwork they submit for review to our office.
